Product Features

- to be used in combination with KEMPER flow and temperature sensors for analysis, documentation and adjustment of operating conditions of water installations
- for connection to flow sensor figure 138 4G, 5 V DC supply from potable measuring instrument
- for connection to flow sensor figure 638 4G, 5 V DC supply from potable measuring instrument
- measuring input for temperature sensors figure 628 0G and 629 0G
- Pt 100 measuring input
- log file downloadable to PC via USB
- including integrated battery, USB cable, USB power pack 230 V / 5 V, cable to connect to measuring module figure 138 00 011
- velocity can be displayed in m/s, m/min
- can be connected to PC
- temperature can be displayed in K, °C, °F
- flow can be displayed in l/s, l/min, l/h, m^3/h, kg/h
- log file for max. 4000 reading points
- display with background light

Technical Data

- measuring input 5VDC / 4-20mA (0-20mA) / 0-10V
- protection class IP65
- power supply 5 V DC
- length of connection cable 2 m
